In Sydney, the sun will set by 5pm in winter. So we encourage the couples to start their ceremony early say around 2pm, so we will have enough time to photograph you with your family and guests after the ceremony.

Then we can move onto our location shoot at your favorite locations until the reception party starts.

Please share your beautiful memories by making more copies, printing out, enlarging or sending images to loved ones without any additional cost.

▶ ***Is there any advice from an experienced wedding photographer's point of view?***

It would be ideal if you could allow us enough time to photograph you after your ceremony and before reception party starts. So we can photograph you beautifully during your location shoots without any rush.

More importantly, we would like you to relax and enjoy your wedding day so we can capture images of you with a lot of smiles.

We are a team of experienced award-winning wedding photographers, so we photograph the moment that happens on the spot on your wedding day as well as formal shots such as group shots or family shots through out the day.

So please enjoy your big day!!
